DataTree for the Desktop (DTD):

If you use DTD in conjunction with DTS2, please note the following:

Assessors Maps: Alpha Map B through Z and are carried as Alpha.MapID and Assessor Maps RQ which carried as MapID.

Official Records (Document): Year.Date.DocID - 01/03/1967 through present and are indexed as Year.MMDD.Doc ID , they can also be requested as book.page (shown below).

Official Records (Document): Book.Page 01/03/1967 through present – carried as book & page, they can also be requested as Year.Date.DocID (shown above).

Plats: Plats volume 1 through present are available. If plats had multiple pages or letter suffixes on the pages they were indexed to the first page number.

> Example: Plat 1 pages 1, 2 & 3 (all go together) would be indexed as plat 1 page 1

> Example 2: Plat 2 pages 1a would be indexed as plat 2 page 1.

Survey Maps: Are indexed by book.page and go from volume 1.1 through 8.24

Note that currency information for the various documents can be found by selecting the document type (1) and then checking the Document Information range (2).
