

DataTrace® Digital Gateway

Connecting Title, Tax & Data.
One Link Simple.

One secure API connection accelerates title automation integration projects across our full suite of nationwide title and tax products directly to your title production system.

DataTrace Digital Gateway digitally transforms your production through a single connection across our industry-leading products, including title reports & searches, legal & vesting data, tax reporting, property & ownership data, and recorded document images.

*Build a connected business,
optimize efficiencies
and better service your
customers – at a faster
speed and lower cost.*
