DATATRACE SELECTED AS ONE OF THE MOST INNOVATIVE TECHNOLOGY COMPANIES IN REAL ESTATE BY HOUSINGWIRE FOR FOURTH STRAIGHT YEAR

Agoura Hills, Calif., Feb. 12, 2024 – **DataTrace**®, the nation's largest provider of data and automation solutions to the title and settlement services industry, announced today it has been selected by *HousingWire* as a 2024 HW Tech100™ Real Estate winner. This is the fourth consecutive year that DataTrace has been named a HW Tech100 winner in this category.

"Being recognized for the fourth year in a row reflects our commitment to supporting the real estate and title industries with best-in-class title and tax data, technology solutions and expertise, and affirms our industry leadership," said Robert Karraa, president of DataTrace. "Our team remains dedicated to continually enhancing the state-of-the-art title search and automation solutions our clients rely on to move their businesses forward."

DataTrace was recognized for its industry-leading property and ownership data and automation solutions that help title and settlement companies streamline their processes, increase efficiencies and drive growth. The company's solutions are powered by the nation's largest, most complete network of real estate title plants, tax and recorded property data, including more than 8 billion recorded documents. Used by leading title underwriters and agents, clients rely on the company's solutions to accelerate digital transformation, gain a competitive edge, benchmark intelligence and employ full integrations with title production technology leaders.

"The technology capabilities and solutions that this year's Tech100 winning organizations have developed are an absolute testament to the relentless innovation within the real estate and mortgage technology landscape," said Sarah Wheeler, editor-in-chief at HousingWire. "These past few years have been transformative for the industry and these honorees are continuing to bring long-awaited solutions to the challenges that mortgage and real estate professionals have struggled with for decades."

About DataTrace

DataTrace Information Services, LLC provides advanced real estate title search technology, automation and production services that enable settlement services companies to quickly access and search regional title databases through a secure application. The DataTrace system delivers title history information, property tax assessment and payment data, document images and property profiles in 47 states across the United States. With its significant geographical coverage, DataTrace title plant and tax database is the broadest and most comprehensive title information system available and is used by the largest national title insurance underwriters.
