

## **DataTrace Launches Title Plants with Automated Title Production Capabilities in 100 Additional Markets, Expanding Industry-Leading Footprint**

***—New title plants available in Chicago, North and Central Texas, and other growing markets leverage artificial intelligence and automation technology—***

**Agoura Hills, Calif., June 05, 2023** – DataTrace® Information Services LLC, the nation's largest provider of data and automation solutions to the title and settlement services industry, announced today it added more than 100 new geographic title plants, augmenting the company's industry-leading county coverage and bringing its total number of title plants to over 1,700. The expansion includes state-of-the-art title plants in Cook County (Chicago) as well as two high-growth Texas counties, Rockwall (Dallas/Fort Worth) and McLennan (Waco), and others in Oregon, New Jersey, Colorado and Alaska. All of the new title plants leverage proprietary artificial intelligence and automation technology.

"DataTrace is continuing to invest in title plants and automation technology in key markets to help our title company customers grow and increase efficiency in the current environment," said Robert Karraa, president of DataTrace. "We're also investing in further enhancements to the depth of our title plants, bringing unmatched historical title data to our new locations, such as Cook County, and existing title plants throughout the country."

In addition to continued geographic expansion, DataTrace has significantly deepened the historical data and document image coverage in several other counties, including San Patricio and Nueces, Texas; Adams and Arapahoe, Colorado; Anchorage, Alaska; and more than 25 counties throughout Florida.

DataTrace, already the industry leader in fully geographically indexed title plants across the U.S., provides title chains, recorded document images, legal and vesting data, tax reporting, and property and ownership data to thousands of title companies nationwide. The full list of DataTrace's title plant coverage can be found at [www.datatracetitle.com/national-title-plant-county-coverage](http://www.datatracetitle.com/national-title-plant-county-coverage).

**About DataTrace**

DataTrace Information Services, LLC provides advanced real estate title search technology, automation and production services that enable settlement services companies to quickly access and search regional title databases through a secure application. The DataTrace system delivers title history information, property tax assessment and payment data, document images and property profiles in 47 states across the United States. With its significant geographical coverage, DataTrace's title plant and tax database is the broadest and most comprehensive title information system available and is used by the largest national title insurance underwriters.
