

## DATATRACE EXECUTIVE KIM ARMSTRONG NAMED A HOUSINGWIRE 2023 HW INSIDERS AWARD WINNER

**Agoura Hills, Calif., September 7, 2023** – [DataTrace®](#), the nation’s largest provider of data and automation solutions to the title and settlement services industry, announced today that Kim Armstrong, vice president of title automation and title production services, was named one of HousingWire’s 2023 HW Insiders award winners. The HousingWire Insiders Award recognizes 75 operational leaders in housing who are working behind-the-scenes to drive their companies and clients forward. The winners were selected by HousingWire’s selection committee based on their vital and dynamic contributions to their companies and the industry as a whole.

“Kim’s accomplishments throughout her seven years at DataTrace are a testament to her strong leadership skills, passion to mentor, and commitment,” said Robert Karraa, president of DataTrace. “She continually anticipates customer needs and pioneers new and innovative approaches to meet or exceed their goals. Her expertise and deep insights into title operations has made her a powerful resource to customers and we are thrilled to see her efforts recognized.”

Armstrong was recognized for her leadership of DataTrace’s Title Automation and Title Production Services group and integral role in the recent geographic expansion of the company’s automated title search capabilities and broader adoption of its digital title production solution. Over the past two years, Armstrong’s team has expanded its industry-leading [TitleIQ™](#) search automation platform’s geographic coverage by 78%, helping more title companies improve the speed of title searches while reducing their cost and, in turn, streamlining real estate transactions for more home buyers and sellers. Together, DataTrace’s TitleIQ platform and its digital title production solution enable title companies to conduct automated title searches and rapidly deliver title documents fully integrated with property and ownership data, further enhancing the efficiency of the settlement process.
