SoftPro® Announces End-to-End Technology Integration with DataTrace

Raleigh, NC – April 26, 2021 – SoftPro is pleased to announce a new nationwide system integration with DataTrace Information Services, LLC, the nation's largest provider of data and automation solutions to the title and settlement services industry.

The integration provides SoftPro users automated access to DataTrace's comprehensive products and services – including fully managed Title Production Services (TPS) and tax information – to support a more accelerated production process in one platform.

"Like SoftPro, DataTrace has a long-standing, well-respected reputation in the land title industry, and we are pleased to give our customers fully integrated access to their services through SoftPro 360," stated Patrick Hempen, SoftPro chief customer officer.

With roots tracing back over 50 years in title research and technology, DataTrace provides nationwide managed title production services with local, state-based expertise to deliver a full suite of examined and non-examined products, including property and title reports. In addition, DataTrace offers complete tax status reporting services nationwide, as well as full tax certification in Colorado and Texas.

"Our integration with SoftPro provides a more secure, fully-integrated portal to further expedite the efficiencies afforded by a completely automated title search and closing process," said Jim Portner, DataTrace vice president of product and strategy. "Ultimately, this integration provides SoftPro users with the insight, automation and services needed to streamline their operations and enhance customer relations."

About SoftPro

SoftPro is the nation's leading provider of title, closing and escrow software. Offering an award-winning suite of products designed to increase volume and revenue, SoftPro delivers innovative technologies to streamline the closing process. SoftPro has been recognized by the American Business Awards every year since 2007 – winning awards for superior customer service, support

and product development.
