

**DATATRACE LAUNCHES TAXSOURCE™, A SINGLE-SOURCE, NATIONWIDE SOLUTION FOR TRUSTED, RELIABLE PROPERTY TAX REPORTING**  
**—TaxSource allows companies of all sizes to improve efficiency, managing multiple tax data sources with a centralized solution delivered through a nationwide network of data and expertise—**

**IRVINE, Calif., June 23, 2020** – DataTrace Information Services LLC, the nation’s largest provider of data and automation solutions to the title and settlement services industry, announced today the launch of TaxSource™. DataTrace TaxSource property tax reporting delivers full national coverage with the most current tax status and rapid results through the latest technology and data resources.

Title companies routinely manage tax reporting through multiple county websites and manual efforts to key data into multiple systems. Even when using regional providers, the data formats are often inconsistent and lack integration to title production systems. TaxSource simplifies the tax reporting process through a centralized platform with access to tax records across the country, delivering a consistent, standardized format from any jurisdiction. With robust system validations, TaxSource provides the highest quality tax data for processing.

“With the launch of TaxSource, DataTrace continues to meet our clients’ needs, providing the most complete data records in the title industry delivered through streamlined processes,” said Robert Karraa, president of DataTrace. “Our best-in-class tax reporting solution combined with our award-winning customer service expands DataTrace’s suite of reliable, trusted property data and automation solutions.”

DataTrace TaxSource supplies nationwide expertise through a network of the strongest regional specialists in the industry to manage the varying county requirements; and integrates with most production applications, saving time, creating efficiencies and providing the highest quality report.
