Legend & Terminology

Term	Definition	Advantages / Notes
Geographic Plant	A specific database of county-recorded documents affecting title of real property ownership, indexed specifically by the geographic location of a property and searchable by its APN, legal description or physical address within a county.	Geographically indexed plants streamline the title search process by indexing all recorded documents, deeds, judgments, liens affecting the title of a specific property, saving valuable time. The traditional standard in the title industry, geographic plants are the most desired plants for verifying chain of title.
Images	Digital images of documents officially recorded in a county recorder/clerk's office and affecting the title of real property ownership.	DataTrace's database of over +8 billion recorded document images provide our settlement services clients with the necessary documentation to support their decisions and efficiently complete their files.
* Restrictions	Restrictions to title plant and document access which are imposed by plant owners or state regulations.	Denotes Restricted Data for this database. Please contact your Sales Representative for more details on how to access this dataset.
Tax Source/Tax Status Reports	Nationwide property tax status reporting.	T = TaxSource product is available in this county: TaxSource by DataTrace delivers full national coverage with the most current tax status and rapid results through the latest technology and data resources. Integrations available via DT-API, TitleFlex and DataTrace System (DTS). Please consult with your DataTrace representative for additional information. C = Tax Certificate product (CO, MI, TX) is available in this county: This is an indemnified product created or acquired from source and passed through to the customer. F = Full-service Tax product (CA, AZ, HI, etc.) is available in this county: This is our traditional Full Service, fully indemnified product available in DTS only. (All of these counties also have uninsured Tax Source avail, see above)
Patent	Database contains records going back to the date the county was formerly established in the state.
