California

Term Definitions

Term	Definition	Advantages / Notes
Geographic Plant	A specific database of county-recorded documents affecting title of real property ownership, indexed specifically by the geographic location of a property and searchable by its APN, legal description or physical address within a county.	Geographically indexed plants streamline the title search process by indexing all recorded documents, deeds, judgments, liens affecting the title of a specific property, saving valuable time. The traditional standard in the title industry, geographic plants are the most desired plants for verifying chain of title.
Images	Digital images of documents officially recorded in a county recorder/clerk's office and affecting the title of real property ownership.	DataTrace's database of over 7 billion recorded document images provide our settlement services clients with the necessary documentation to support their decisions and efficiently complete their files.
* Restricted	Restrictions to title plant or image access which are imposed by plant owners or other regulations.	As restrictions can vary, it is important to reach out to your DataTrace representative to gain access to a restricted county. Our experienced team is trained to find the best solutions and alternatives to meet your needs.
Tax Status Report	Nationwide property tax status reporting.	TaxSource by DataTrace delivers full national coverage with the most current tax status and rapid results through the latest technology and data resources. Integrations available via DT-API, TitleFlex and DataTrace System (DTS). Please consult with your DataTrace representative for additional information.
