Expertise

We Know Title

DataTrace provides nationwide title production services with local state-based experts. With roots tracing back over 50 years in title research and technology, our expertise, innovation and consultative approach provides you with the best in title production services.

DataTrace's experienced, nationwide network of state-based experts give you the security you need for a job well done. As the largest provider of title plants, we provide you with a secure, instant connection to 1,600+ regionally indexed geographic title plants – through a single, standardized interface. DataTrace experts help grow your title business with:

- **Over 18 years** of title production experience and 7.5+ million reports produced to-date
- **Regional on-shore search and exam expertise** to conform with state and federal regulations
- **Full suite of nationwide uniform products**, based on best practice search and exam standards and state-based expertise

Quality

Accuracy and quality are essential to title production. DataTrace employs stringent verification, audit and automated workflows to reduce errors and mitigate risk to provide you with confidence throughout the search process. These include:

- **Quality control process** ensures the highest quality and accuracy
- **Embedded best practice standards** – based on search type and jurisdiction – to provide nationwide risk and compliance controls
- **Scorecards** to monitor quality, performance and pro-actively resolve potential issues
- **Product-driven workflows** minimizes the potential for errors

Efficiency

Outsourcing made easy. DataTrace integrates with the leading title production systems, providing you access to the industry's largest title database and flexible output, to streamline your processes. DataTrace simplifies your title process with:

- **National coverage and local expertise** eliminate your need to manage multiple vendors. We adapt to your volume and geographic fluctuations.
- **The largest title database in the industry**, providing direct access to more data, higher quality data and faster delivery
- **System to system integrations** to over 15 leading title production systems
- **Flexible, commitment style output** delivered the way you need it: XML, PDF, Word, Excel, JPG or PNG

Service

We provide dedicated live, onshore support by our award-winning customer service team, so you can quickly get the answers you need through:

- **Dedicated** account managers
- Personal, **high-touch** onboarding process
- Award-winning Customer Service - Winners of **prestigious Stevie® Awards** for Sales and Customer Service

| When Expertise, Quality, Efficiency & Service Matter **Trust DataTrace**
