SOLUTIONS FOR THE TOP 5 CHALLENGES FACING THE TITLE INDUSTRY

COST REDUCTION

PROBLEM:
Constant Pressure to ↓ costs and ↑ profitability

SOLUTION:
- Automate address verification into entry process with integrated property information and report
- Search Automation minimizes manual work, data extraction and system integration
- Starters are verified and reduce manual efforts

TURN-AROUND TIME PRESSURE

PROBLEM:
Constant Pressure on companies to deliver title commitments faster

SOLUTION:
- Automate address verification into entry process with integrated property information and report
- Search Automation minimizes manual work, data extraction and system integration
- Starters are verified and reduce manual efforts

REVENUE GROWTH

PROBLEM:
Revenue growth is difficult in a highly competitive market

SOLUTION:
- Create a competitive advantage and differentiate yourself in the industry
- Increase efficiencies to lower costs and provide flexible pricing
- Title automation increases efficiency without adding costs

AGING WORKFORCE

PROBLEM:
Many people in the title industry have decades of experience.

SOLUTION:
- A Search Automation platform can automate searching criteria that will retire with experienced users
- Starters are verified and reduce manual efforts

ACCURACY

PROBLEM:
Errors cause duplication of work, claims and potential losses

SOLUTION:
- Minimize manual work through search automation and system integration
- Partner with the strongest data provider for the most current and accurate data and documents
